# GERMAN AGENTS IN AMERICA

Who Have Intern With Business In Any Way

#### GENERAL CLEAN UP ORDERED

Feeling in Washington Runs High and Rumors of Drastic Action Are Current.

Washington, Sept. 11 .- A general deanup of all agents and representatives of Cermany and Austria in this country, who have tried to interfere with American business in any way is said to have been decided on by

The clean-up is expected to include consular agents and others who have conspired in any way to cripple manu facturing plants supplying munitions of war or supplies of any kind.

It is also said that other and higher up officials will be sent home. Washington, Sept. 10.-President Wilson's request for the recall of the

Austrian ambassador, Dr. Constantin Theodor Dumba, has broadened into a situation involving Capt. Franz von Papen, the military attache of the German embassy; A'exander Nuber von Pereked, the Austrian consul general in New York, and possibly Count von Bernstorff, the German ambassador.

The official view is that the last named, although technically involved is not so seriously concerned as the military attache or the consul general. It is not unlikely that both of the latter may be recalled or dismiss ed from the country.

Coupled with Germany's disappointing and unsatisfactory explanation of the sinking of the White Star liner Arabic, after Count von Bernstorff had given assurances that full satisfaction would be given if it was established that a German submarine sunk the ship, official Washington ws the friendly relations with the Germanic powers strained more toward the breaking point than ever be-

Hopes that the submarine crisis had been safely passed and that a break with Germany and the United States had been avoided were displaced today by misgivings. Talk of the possibility of breaking diplomatic relations was heard again, although

#### What Are They Saying?

tral powers, on the theory that Austria after having her ambassador virtuelly dismissed from the country, might stand with her ally in relations with the United States.

Unofficial reports that a second note had been started from the Berlin foreign office for Washington furnished about the only basis of optimism in official quarters so far as the submarine controversy was concerned. There was no official intimation that another communication was on the way, but the American reply to the note on the Arabic probably will be delayed until officials can learn whether to expect anything additional from Berlin.

It may be stated that If nothing comes in the nature of a modification of Germany's explanation an American note will reach Berlin prob ably early next week which will set forth the views of the United States in a brief unmistakeable manner.

#### THE MOTHERS' CONGRESS

Concluding Sessions of the Third Annual Conference.

The concluding sessions of the third annual conference of the Vermont branch of the National Congress of Mothers and Parent-Teachers associations were held at assembly hall in the high school building Fri-

At the morning session the reports of the state secretary, Mrs. Willis M. Ross of Rutland and of the state treasurer, Mrs. S. L. Hazard of Fair Haven, were read. These reports were followed by three minute reports of the presidents of the different associations throughout the state a good number of whom were pres-

Mrs. M. P. Higgins of Worcester, president of the Massachusetts branch, spoke for the national congress and next came the election of officers which resulted as follows:

President, Mrs. H. A. Harman of Rutland; vice-presidents, Mrs. E. B. Huling of Bennington, Mrs. E. D. Raymond of Fair Haven, Mrs. M. D. Chittenden of Burlington, Mrs. F. G. Swinnerton of Rulland, Mrs. W. G. Piper of West Rutland, Mrs. W. L. Bryant of Springfield, Mrs. J. B. Estee of Montpelier, Mrs. W. M. Ross of Rutland, Miss Lenora Taft of Woodstock, Mrs. T. H. Southall of Benalligton. Mrs. C. H. Coan of Ruthand was elected secretary and Mrs. S. L. Hazard of Fair Hayen, treasurer, Mrs. J. P. H. Adams of Fair Haven Swinnerton of Rutland was re-elected state organizer.

Chairmen of committees: Publici ty, Mrs. G. B. Hyland of Rutland; playground, Mrs. G. D. Parkhurst of Fair Haven; legislation, Mrs. J. B. Walton of Montpelier; child hygiene, Mrs. H. I. Howard of Burlington; household economies, Mrs. G. W. Leonard of Rutland; child labor, Mrs. C. D. Shank of Fair Haven; gardening, Mrs. W. G. Piper of West Rutland; child welfare, Mrs. E. I. Hall of Rutland; magazine, Mrs.

Lester Nichols of Bennington. The report of the state organizer, Mrs. F. G. Swinnerton of Rutland was given at the afternoon session and the conference closed with two exceptional addresses by Mrs. Anna Hawks Putnam of Benington who spoke upon "The Woman's Peace Pusty" and Superintendent John D. Whit tier of Shaftsbury whose subject was "The Country School."

At 4 o'clock a delightful tea was served in the domestic science room of the high school by Miss Margaret McLean, the instructor, and her pupils.

The conference received an invitation from Fair Haven to hold the next annual gathering in that town. Resolutions presented by the W. C. T. U. condemning the license sale of intoxicating liquor were adopted.

JAIL FOR GUSTAV STAHL

Months in Atlanta.

New York, Sept. 9 .- Gustav Stahl, the German reservist who swore he saw four guns on the Lusitania, just before she sailed from here on her last trip, but later admitted his atfidavit was false and entered a plea of guilty to perjury, was today sentenced by Judge Hough to 18 months imprisonment in the federal prison at Atlanta and to pay a fine of \$1.

Newfane People Were on Way To **Londonderry Fair** 

#### LIVES

Driver of Car Claims He Stopped at Railroad Crossing and Heard No Train.

Brattleboro, Sept. 10 .- Mrs. Herbert H. Howe of Newfane is in the Memorial hospital here with a frac-West River passenger train on the "upper" crossing at Parks' siding between Townshend and West Townshend.

The three-year-old daughter of Mr and Mrs. Harry Howe, also of Newfane, is in the hospital with numerous cuts about the head and face body bruises and a small section of the upper jaw broken off. The child is not critically injured. The full extent of the injuries to the elder Mrs. Howe has not been determined. She may possibly have internal in-

Mr. and Mrs. Herbert H. Howe invited their sons, Glenn and Harry, and Mrs. Harry Howe and her child to ride to Londonderry to the fair this morning. They had reached the they stopped the car and listened. Not hearing a train they started to cross the track and got nearly over when the engine hit the rear of the tonneau of the Ford car and hurled

the occupants into the adjacent field. Harry Howe declares no whistle was blown and the bell was not ringing. The others of the party support this statement. The crossing is a bad one and the track can be was ap ointed auditor and Mrs. F. G. seen only a short distance which accounted, it is claimed, for the care with which the party approached it as they knew it was about train time. John Klinefielder, engineer, and John Hopper, fireman, claim they were observing the rules of the road when approaching the crossing.

#### DIES OF INJURIES

H. A. Streeter Formerly of Brattleboro, Hurt in Auto Accident.

Henry Archie Streeter, 47 years old, a native of Spofford, N. H., a former well-known resident of Brattle boro and for the last 20 years a resident of Waterbury, Ct., died Thursday morning in the Brattleboro Memorial hospital as the result of a fractured skull suffered in an automobile accident late Monday afternoon on the West Chesterfield road to Spofford Lake. An operation was performed but there had been no hope of his recovery for two days

preceding. He came to Brattleboro Saturday night to spend the holiday Monday and it was while returning from Spofford lake in the car of Bert O. Ware with a party of friends that the car crashed through a guard rail at a culvert while attempting to pass another machine and overturned, in juring all of the members of the party. Mr. Streeter was the only one who received fatal injuries.

Besides his wife, he leaves his fath er, Capt. H. C. Streeter, a veteran of the Civil war of Brattleboro, two brothers, Frank C. of Brattleboro, who was one of the party in the auto mobile, Charles B. of Cleveland, O. and one sister, Mrs. Rollin H. Brown of Brattleboro. The funeral will be held tomorrow afternoon at 2.30 o' clock from the home of his father.

#### 9,773,817 PEOPLE IN N. Y.

New York City Alone Has Population of \$5,066,222.

Albany, Sept. 10 .- The total popu lation of New York state is 9,773,817 according to figures submitted to the constitutional convention today by Secretary of State Francis M. Hugo While the official state census figures from all counties are not complete, it was said they were substantially cor-

New York city has a population of 5,066,222, an increase of 300,661 in five years. During that time, however, the borough of Manhattan has shown a decrease in population of

The state outside of New York has a population of 4,707,595 or an increase of 660,203 since 1910.

Hepburn of New York.

Middlebury, Sept. 9 .- In addition to the men's dormitory, the gift of A. Barton Hepburn, the New York banker and alumnus of Middlebury college, Middlebury college has received another gift from the same generous donor in the shape of funds to build a commons and social hall for men. Work on the erection of both buildings is well under way.

Hepburn hall, the men's dormitory, given several weeks ago, stands on a height west of the old college nearly 100 feet above the village and commands an extensive view of the Otter Creek valley, the Green Mountains and to the west the Adirondacks. It is a little to the south of the white marble Mead Memorial chapel the spire of which is now under construc-

Although connected by an enclosed passage or loggia with the dormitory, the commons is virtually an independ ent building. The main feature is a large dining hall, 25 by 65 feet, suffi citent to seat 125 comfortably. The ceiling is high, and there are five large arched windows on either side, making an imposing effect. There will be a spacious fireplace at one end of the room. It will be finished

in colonial design. On the floor above an equal space will be devoted to social rooms, a large common hall, headquarters for the "Middlebury Union," the student self-governing organization of the men of the college, a trophy room and reading and game rooms. These features are designed to make the commons the social center for the men of the college. On the ground floor is a kitchen, store room, milk room, coal room and large bath room

for servants. The dormitory proper is five stories in height and 65 by 150 feet in external dimensions. It has wings at either end, allowing abundance of

light and air for each room. The arrangement of rooms is un ique, a special design of the architects, Rossiter & Muller of New

Each two students have a study, 13 by 13 feet, with a single sleeping room, 9 by 12, on either side, and between each two sleeping rooms is a toilet room exclusively for the two students. It was Mr. Hepburn's idea with private bath and that students should have the same privileges. The amount of plumbing provided in the dormitory is therefore extraordinary. The baths proper will appeal particu larly to young men, being shower baths only, two rooms of three show-

ers each on every floor. Both buildings will be as nearly fire proof as they can be made and the state board of health has notified the college that no external fire escapes would be necessary. There will not be a wooden floor in the buildings, all being of composition with

sanitary rounded corners. The contract for both and dormitory has been let to Thomas W. Rogers of Brandon, Allan Calhoun & Son of Middlebury have the heating and plumbing contract. The buildings will be heated by steam from the central plant, built large enough several years ago to provide for just such additions to the plant of the college. It is expected that the hall will be completed in time for use during the summer session of 1916.

Mr. Hepburn has been studying the plans for these buildings for several years and has personally visited many of the leading colleges of the country for ideas as to their construction. He was impressed with the ob servation of the Carnegie report that he Vermont colleges, like those else where, do not give sufficient attent ion to the environment in which their students live and that "in none of them does the dormitory life furnish an element in the student's better ment." It was this suggestion which led him to add the commons to the dormitory he had originally planned and also to include an attractive apartment for those having care of the building. His desire is to equip Middlebury college with as good ac commodations, living, dining, and social rooms, under one roof, as those possessed by any college in the Unit ed States.

## BY ADVANCING GERMANS

Claimed Russian Victory Apparent- Anglo-French Commission Has ly Not Important

Expected That When These Are In Their Hands They Will Get Ready For Winter.

London, Saturday, Sept. 11.-The two Russian successes on the Screth River, Galicia, while they resulted in a big capture of men and guns, have not interfered with the Austro-Ger man advance. Further north, having taken Dubno, the second of the tri angle of fortresses to fall into their hands, the Austrians, with the help of the Germans, are advancing to Royno, the third of these fortified cen

Meanwhile, the Germans from the south of the Pripet marshes to the recion southwest of Vulna, are fighting hard and with some success for the strategic railway system of the Brest Vilna area. Most of this railway sys tem is already in the possession of the invaders, but they are now aiming particularly at the main trunk line, which, starting at Riga, runs through Dvinsk, Vilna, Lida and the East Pripet marshes to Rovno and onward to Demberg, Galicia.

Military critics express the opinion that once this line is in the hands of the Austro-German forces they will go into Winter Quarters, for the more important military purpose of bring ing any large part of the Russian forces to a decisive battle under disadvantageous conditions now seems out of the question as the Autumn rains already have set in.

London, Sept. 11 .- Four more British ships have been torpedoed by Ger man submarines and also one French cargo boat. The British ships lost include the Cornubia and Alexander

#### and a Lowestoft fishing vessel. MAKING NEW CITIZENS

Naturalization Purposes.

Session of U. S. District Court for

Fred S. Platt of Ruthand, clerk of the United States district court, held a session for naturalization puropses at the office of Batchelder & Bates Friday afternoon. With the assistance of Mrs. Lucy J. B. Burt. stenographer for Batchelder & Bates first papers were made out for 12 foreigners who expressed their desire to become citizens of the United States. The process required some time and two applicants were either unable to wait their turn or were not

disposed to do so. Of the twelve one was a native of Syria, three of Scotland, one of Ireland and the others of Italy.

### CITIES FOR CHILDREN.

Superintendent Wirt Argues For Rights of the Young In Municipalities. Superintendent William A. Wirt of the public schools of Gary, Ind., in a recent address delivered in New York city advocated more thought for the

young in the building of cities. He argued that modern cities, and New York in particular, were not built for children, but for adults, and that Americans ought to set about the task at once of rebuilding their cities. He said the streets, the only places available for children to play, were the source of much evil.

Mr. Wirt went on to say that by spending \$800,000 for playgrounds and changing the hours New York could accomplish more than by spending, as the New York board proposes, \$2,000, 000 for two new buildings.

"The small shop and the home life of the city have disappeared," said the speaker, "Apartment builders forget all about children. They make apartments for adults only. Builders of churches make the same mistakes and make them right here in up to date New York and elsewhere."

Jack of All Trades.

There are no trades or guilds in Iceland, every man being compelled to depend upon his own skill for his supplies. The natives make their own shoes, shoe their own horses and manufacture their saddles.

Middle Class. "I am of the great meaty class," he said proudly. "The menty class?" "les. The middle class, which is

the meat of the human sandwich,"-

## GERMANS AFTER THE RAILROADS BANQUETTED BY BANKERS

Desire at Least \$500,000,000 With Which to Purchase American Munitions of War.

New York, Sept. 10 .- The Anglo-French commission, seeking a way to meet the huge bills of Great Britain and France for American munitions and other supplies, reached New York today, was welcomed by J. P. Morgan and met approximately 100 prominent bankers, insurance heafis and leaders in other lines of finance late this afternoon at a reception in Mrs. Morgan's library. Tonight the commissioners were dinner guests of

a party of New York financiers. Five hundred million dollars is the smallest sum which the commission hopes to borrow. They would much rather have a round billion. In view however, of the many difficulties which lie in the way of floating a credit loan of such proportions in Am erica, it was thought that the commission's task would be almost of herculcan proportions and would result in borrowing the smaller sum. The entire proceeds, of course, would be used in paying for American sup-
